Jetfly

 FLY7

CAPTAIN JET

JETFLY GROUP PORTFOLIO

AIRCRAFT MANAGEMENT

Fly7 are based in Lausanne and can manage your Pilatus aircraft anywhere in the world, overseeing all maintenance, operations and crew management. They can also assist clients completely through the acquisition process or the sale of their aircraft. They offer an integrated approach with technical and accounting support.

FRACTIONAL OWNERSHIP

Buy a share in a Pilatus aircraft and get all of the benefits of full aircraft ownership but at a fraction of the cost. Jetfly operates Europe's largest fleet of Pilatus PC-12 & PC-24 aircraft. The Jetfly service offers its co-owners guaranteed availability of an aircraft, at short notice, anywhere in Europe. Jetfly have access to 3000+ airports as well as small grass runways. You save time by landing closer to your final destination.

CAPTAIN JET

AIRCRAFT CHARTER

CaptainJet is an aircraft charter platform which has access to over 7000+ aircraft worldwide. This ranges from VLI's to long-range jets. CaptainJet gives you the option to book a flight through a professional broker or you can use their pioneering online platform which puts you directly in touch with the aircraft operator.

An aerial photograph of two private jets flying over a lush, green forested mountain range. The jets are silver with blue accents. The jet in the foreground is a Gulfstream G650, and the one behind it is a Bombardier CRJ-900. The background shows rugged, rocky terrain with dense green trees.

FRACTIONAL OWNERSHIP

THE COMPANY

Jetfly was established in 1999, has its headquarters in Luxembourg and operates the largest fleet of Pilatus aircraft in Europe. They have been a pioneer of fractional ownership on the highest level of professionalism. With 20 years of experience and over 150.000 flying hours, Jetfly employs around 300 people including 150 full time pilots. Jetfly are the European launch partner and first commercial operator of the Pilatus PC-24 jet.

THE CONCEPT

You buy a share relative to your flying needs in a new, fully optioned Pilatus PC-12 or PC-24 aircraft. This gives you guaranteed access to the fleet of Pilatus PC-12 or PC-24 anywhere in Europe at short notice for a set number of hours each year. You simply have to call or email the reservations team and they will do the rest. In addition to the acquisition of the aircraft share, there is a monthly management fee to have the aircraft available 24/7. You then pay for each occupied hour in the aircraft, but you don't have to worry about any positioning costs.

THE FLEET

Jetfly operates the greenest fleet of business aircraft in Europe with an emission rate which is ten times lower than a large cabin business jet. The fleet consists of 25 Pilatus PC-12 and 6 Pilatus PC-24 jets and they are all adorned with the unique interior & exterior designed by Philippe Starck. Every year the fleet grows by 4 brand new, fully optioned Pilatus PC-12 and PC-24 aircraft. Each aircraft has a large cargo-door for bulky luggage as well as a spacious cabin for up to 8 passengers with enough leg- and headroom.

FRACTIONAL OWNERSHIP

JETFLY CO-OWNER

Jetfly co-owners use Jetfly for business and personal travel. They have an ownership mentality but don't have the requirement for full aircraft purchase. They have been won over by the Pilatus aircraft and love its versatility and ability to carry heavy loads over long distances and land on runways closer to their final destination. Jetfly co-owners understand the low depreciation, the safety and reliability you get from investing in a Pilatus aircraft as opposed to simply chartering. They want to know that they are in safe hands with highly trained and professional crews. They don't want to pay for positioning legs and like transparent pricing so they can budget.

ADVANTAGES AS A CO-OWNER

All co-owners are guaranteed to receive a fully optioned aircraft within 24 hours, with two experienced and highly trained Jetfly pilots throughout Europe. As you can land on unpaved runways as well on international airports, you have access to more than 3000 airports, 3x as many airfields than the charter market. Jetfly high level of exceptional service is available 24/7, 365 days a year and will take care of everything from flight planning to catering. As a co-owner you have full flexibility on your flight bookings and you travel within your selected group of people – no unforeseen cancellations, no delays or waiting time for security checks. You fly the most comfortable way with transparent pricing and without any positioning and cancellation fees. Jetfly co-owners benefit from all the advantages of aircraft ownership but without taking on the full cost risk.

AIRCRAFT MANAGEMENT

AIRCRAFT MANAGEMENT

THE COMPANY

Fly7 are based in Lausanne and offer a full management solution for Pilatus owner's worldwide. This covers all maintenance, operations and crew management. They can also consult on the aircraft purchase and sale of old aircraft.

THE CONCEPT

Fly7 takes control of the entire aircraft management and offers its clients the option to charter their aircraft as a way of off-setting some of the costs of ownership. The charter flights are operated under an Air Operating Certificate (AOC) which is held by Jetfly Group's commercial arm based in Finland - Hendell Aviation.

THE FLEET

Fly7 is currently servicing over 20 Pilatus PC-12 including a cargo plane and 3 Pilatus PC-24.

AIRCRAFT MANAGEMENT

FLY7 CLIENTS

Private individuals and companies who want a trusted partner to manage their aircraft safely and efficiently with the opportunity to recoup some of the costs through charter flights. Clients can also be charter customers using the Fly7 fleet of Pilatus or want access to 7000+ private jets worldwide which Fly7 have access to through the Avinode platform and personal relationships.

MANAGEMENT ADVANTAGES

Fly7 take the hassle away from aircraft ownership and can tailor individual solutions to fit the owner's exact needs. The aircraft can be based where the owner wants it to be and crews provided at short notice. Operating under one of the only AOC's for single turbine aircraft in Europe (Hendell Aviation) gives the owner the opportunity to off-set some of the costs of aircraft ownership through charter flights.

AIRCRAFT CHARTER

CAPTAIN JET

AIRCRAFT CHARTER

THE COMPANY

CaptainJet is a private aircraft charter company which has access to over 7000+ business jets worldwide.

THE CONCEPT

Through the Captain Jet website and App the customer can get quotes instantly from private jet operators across the world. The customer is then in control of booking the flight and can negotiate directly with the operator. Pricing is transparent with a 7% commission to Captain Jet. The platform is user friendly with a rating system on operators which encourages the highest level of customer service. There is a professional team of brokers behind the platform that can offer guidance and solve any problems the customer might have. Captain Jet also offers a more traditional jet booking service directly through the broker who can manage the whole flight process.

THE AIRCRAFT

CaptainJet have access to the worldwide fleet of private aircraft; turbo props, VJL's, light jets, medium and heavy jets.

CHARTER ADVANTAGES

Quick solution with no long-term commitment required. Variety of different aircraft to choose from. Empty leg opportunities. Very high level of professional service.
